

**STATE OF TEXAS
OFFICE OF THE GOVERNOR**

As we look to build a strong future, it is imperative that we invest in the education of our children. To ensure that young Texans stay on the road to success, they must have a rigorous, well-rounded education. When our children need assistance to overcome learning challenges, educational diagnosticians are often the first to identify a child's needs.

Educational diagnosticians leverage specialized training and innovative methods to diagnose learning disabilities. Relying on research and best practices, these professionals assist teachers by providing the foundational skills through which students can build a lifetime of success. Adapting to students' evolving needs, educational diagnosticians develop and recommend teaching strategies. Their work leaves a lasting impact and helps create a lifelong love of learning.

Each year, a week in March is set aside to honor the hard work and dedication of educational diagnosticians and to support their vital contributions to our children. At this time, I encourage all Texans to recognize the role that educational diagnosticians play in our education system. Their invaluable service to the next generation ensures our prosperous future.

Therefore, I, Greg Abbott, Governor of Texas, do hereby proclaim March 2 – 8, 2025, to be

Educational Diagnosticians Week

in Texas and urge all Texans to observe the occasion with appropriate ceremonies and activities.

In testimony whereof, I have hereunto affixed my signature this the 10th day of January, 2025.

Greg Abbott

Governor of Texas
